CONNECTIONS THROUGH EXPERIENCE

## WHY US?

After 10 years of designing, building and running escape room games we are pretty good at what we do. With over 1000 5\* reviews and 8 awards our customers also seem to agree. We know that escape rooms are a great vehicle for active play. Our current focus is to take active play into the wider community by encouraging players to explore new ideas, interact with engaging narratives and create connections through experiences.
